

Trending IPL Video Prompt

ChatGPT Prompt:

Aspect ratio 16:9, Use reference image for face only — preserve my exact facial structure, hairstyle,

beard, skin tone, beard details, and likeness accurately and he wears the uploaded CSK Jersey. Create an ultra-realistic frame

captured by an official IPL LIVE BROADCAST CAMERA during a night match between Chennai Super Kings and Royal Challengers Bengaluru in a packed Indian cricket stadium. I am playing for CSK as a professional batsman, batting without a helmet so my face is fully visible like a real IPL star on live TV.

The moment captured is just before playing the shot — I am in a realistic batting stance at the crease, knees slightly bent, eyes locked intensely on the incoming ball, bat lifted and ready, body balanced like a professional batsman preparing for a cover drive or pull shot. The pose should feel tense and cinematic, like a real split-second live broadcast capture before impact.

Add dramatic stadium floodlights, roaring crowd, giant LED screens, realistic grass pitch, shallow depth of field, and authentic IPL atmosphere. Include realistic IPL live telecast graphics at the bottom of the screen showing:

“ARUSH” as the striker batsman name, CSK vs RCB, live score, overs, strike rate, and broadcast-style stats exactly like Star Sports or JioHotstar coverage.

The image should look exactly like a real IPL live telecast screenshot — not a selfie, not a posed photoshoot. Professional sports broadcast camera look, long-lens TV camera compression, realistic motion anticipation, cinematic framing, ultra-realistic cricket posture, sweat details, dynamic stadium lighting, 8K sports photography realism, authentic live-match energy.

Video Prompt:

0:00–0:03 — Front eye-level IPL broadcast camera angle. I intensely look at the ball

while standing at the crease for Chennai Super Kings, dramatic floodlights, crowd roaring,

realistic live telecast scoreboard at bottom showing "ARUSH" as striker.

0:03–0:05 — Quick multi-shot close-ups: tightening grip on bat, slight stance adjustment, focused eyes tracking the ball, bat raised near shoulder, fast-paced sports

broadcast cuts.

0:05–0:08 — I smash the ball powerfully for a massive six, explosive bat swing, realistic

cricket physics, crowd instantly erupts cheering loudly. Commentator shouts excitedly:

"OH HERE YOU GO! WHAT A SHOT BY ARUSH!"

0:08–0:12 — Broadcast camera quickly switches to follow the ball flying high through

stadium lights toward boundary stands for six, fast live telecast pan, crowd going crazy,

realistic motion blur and TV camera shake.

0:12–0:15 — Camera cuts back to me from front angle calmly watching the ball travel

with confident expression, crowd roaring behind me, authentic Star Sports / JioHotstar

IPL live telecast atmosphere, ultra-realistic sports broadcast cinematography, fast-paced

editing, natural motion, 8K realism.
